Technical Store Keeper Interview Questions and Sample Answers

1. Tell us about yourself.

Answer: My name is Success Chijioke. I have experience working as a Technical Store Keeper at SPN Studio Press Nigeria. My responsibilities include receiving and issuing technical materials, maintaining inventory records, monitoring stock levels, preparing reports, and ensuring that spare parts and consumables are available for maintenance activities.

---

2. What are the duties of a Technical Store Keeper?

Answer: A Technical Store Keeper is responsible for:

- Receiving and inspecting materials.
- Maintaining accurate inventory records.
- Issuing spare parts and tools.
- Monitoring stock levels.
- Preparing stock reports.
- Preventing stock shortages.
- Ensuring proper storage and housekeeping.
- Coordinating with procurement and maintenance departments.

---

3. How do you keep accurate inventory records?

Answer: I record all incoming and outgoing materials immediately, reconcile physical stock with store records regularly, and perform periodic stock counts to identify discrepancies and maintain accuracy.

---

4. What would you do if physical stock does not match your records?

Answer: I would investigate the discrepancy by reviewing issue vouchers, receiving records, and stock movement documents. I would then report the findings to management and update records after approval.

---

5. How do you prevent stock shortages?

Answer: I monitor minimum stock levels, review consumption trends, and notify the procurement department early when stock approaches the reorder level.

---

6. What inventory management methods are you familiar with?

Answer: I am familiar with:

- FIFO (First In, First Out)
- Stock Reorder Levels
- Stock Taking
- Bin Cards
- Inventory Registers
- Material Requisition Forms

---

7. Explain FIFO.

Answer: FIFO means First In, First Out. Materials received first are issued first to avoid deterioration, expiration, or obsolescence.

---

8. How do you handle damaged materials?

Answer: I isolate the damaged items, document them, report them to management, and follow company procedures for replacement, repair, or disposal.

---

9. What documents are commonly used in a technical store?

Answer:

- Goods Received Notes (GRN)
- Material Requisition Forms (MRF)
- Stock Cards
- Bin Cards
- Delivery Notes
- Purchase Orders
- Stock Transfer Forms

---

10. How do you ensure tools and spare parts are not lost?

Answer: I maintain proper records of issued items, require authorization before issuing materials, conduct regular audits, and ensure proper storage and labeling.

---

11. How would you handle an urgent request for a spare part that is out of stock?

Answer: I would immediately notify management and procurement, check for alternative sources within the organization, and assist in expediting the purchase process to minimize downtime.

---

12. What computer skills do you have that help in store management?

Answer: I am proficient in Microsoft Excel, inventory record management, report preparation, and basic data analysis. I can maintain digital stock records and generate inventory reports efficiently.

---

13. Why is housekeeping important in a technical store?

Answer: Good housekeeping improves safety, reduces material damage, makes items easier to locate, and helps maintain an organized working environment.

---

14. Describe a challenge you faced as a Technical Store Keeper.

Answer: One challenge was managing critical spare parts during periods of high equipment maintenance demand. I addressed this by closely monitoring stock levels, communicating with procurement early, and maintaining accurate records to avoid stockouts.

---

15. Why should we hire you?

Answer: I have hands-on experience as a Technical Store Keeper, strong organizational skills, attention to detail, inventory management experience, and the ability to work effectively with maintenance and procurement teams. I am committed to maintaining accurate records and ensuring materials are available when needed.
